

## **GOOSE SEASON IS ALMOST HERE !**

Goose season dates have been set. I hope everyone is looking forward to another great season! Goose hunting on the eastern shore was great again last year. We only had a handful of slow days last season, usually due to the weather. All indications are pointing toward a normal winter which should mean good hunting! I expect it to be even better than last year. Since normal winters are usually followed by colder ones or just normal ones so I look for things to be good!

I will still have the property which is adjacent to the big Ted Reed farm with our large sanctuary pond. This will give us over 600 acres of undisturbed land which makes the geese easier to decoy.

As you know without your continued support I could not continue to bring us together for our yearly ritual as leases are super expensive! I greatly appreciate everyone's business!

Please call or email me (email works better) ASAP to book what you can and give me your dates. This also helps with coordinating farms and guides to give you the best experience. I am anxiously waiting for your calls and emails, and meeting you early each morning for another year of hunting Canada Geese. Help me continue the tradition!! I am just starting to book and I have lots of weekend dates still left! Email me now and get these weekend dates before they are gone!

(This is also a quick reminder that the Rockfishing is "Off The Hook" as Rocktober is in full swing! Get in on a fishing trip while it is the best of the year!!!

Best Regards, Mike
